**ACT MOST FOUL** Videotape from ANC ABS-CBN shows a robbery suspect being tortured by a purported police officer in a precinct in Tondo, Manila.

### Police torture video triggers outrage

By D2 Top

A TV NEWS video of a holding suspect allegedly being tortured by a Manila police precinct commander yesterday led to his suspension and that of his 21 officers and an investigation by three agencies, officials said.

Thursday's ABS-CBN footage, shot with a cell phone camera, showed a naked and bound man, groaning apparently in great pain on the floor of what was described as the precinct station on Awatanon Street in Tondo.

## SC urged to honor Luisita deal

By Philip C. Talavera  
and Nikkie Dizon

**LAWYERS OF MAGCENDA** Luisita Inc. (LUI) yesterday told the Supreme Court that the Presidential Agrarian Reform Council (PARC) had no authority to void a deal giving workers stocks instead of land in the plantation owned by President

Arroyo's family. For over five hours, the justices heard arguments on an LUI petition to revoke a PARC decision in 2005 declaring that the stock distribution option (SDO) under the Comprehensive Agrarian Reform Program (CARP) did not benefit the farmers.

Oral arguments will continue

on Aug. 24 for the presentation of the farmers' lawyers.

A ruling on the case could have a far-reaching impact on a 2009 law extending CARP for five more years and its social justice mandate to distribute to farmers more than 1 million hectares of the nation's most productive lands that have

## Noynoy threatens PAL, union with 'open skies'

By Christine Q. Alexander

With the success of the previous campaign, the airline industry is optimistic. President Aquino yesterday warned Philippine Airlines that the government would be forced to allow its flight schedule to other domestic and even foreign airlines in case a strike occurs in the flying season.

The President told a news conference his government has been studying the pros and cons of implementing an open skin policy or a "partial open day policy" as the dispute between the military management and labor groups such as a room for the cause.

Government mediated talks between management and the Flight Attendants and Stewards Association of the Philippines (FASP).

age collapsed the other day and there was a possibility that other owners of the Bag (any of which have similar disputes with management, would contribute to a similar case.

At his second news conference, also hosted by the presidency (St. Agnes appeared again to HR, management and labor unions) to consider their differences, revealing them that the strike was "linked" with racial issues.<sup>12</sup>

President Aquino said he recognized that took what had been his dream that he has to "side with the riding community."

He said the Public was studying the implementation of a partial open shore policy which was done during the late '50s when SFL was about 60 by a lease holder. The three shore police Departments of Washington and Dismalwater as well as Tourism had

Asked whether that means the government would adopt an open class policy in case of a disruption of DB services, President Aguirre said, "Let me put it this way, they will hasten the opening of our skies if they proceed to discuss a reciprocal agreement with the United States."

As open skies policy favored by airlines is clearly unworkable, would dropping air traffic and allow more airlines to service the Manila route. At present, government air traffic regulation guarantees and handicaps only one airline while government also allows Philippine flag carriers to service their countries.

**Morong 43 mom,  
baby back in jail**

**ALBANY**—Chenoweth, one of 41 health workers accused of being overpaid while, primarily, were hospitalized with the flu, says one month did not alter the Albany Regional Trial Court decision in favor of the release of compensation.

Obama gave birth to her first child on July 22 and has been staying at the Philippine General Hospital.

Thursday, the jail warden from Camp Hagerman came to inform the Morong court's ruling that denied Olivera's plea is he released from detention so that she could care for her baby.

In Geneva, Brown, chairperson of Health Alliance for Democracy, Thailand, said the jail warden allowed O'Brien to bring her child with her to the cell, but only for one to two weeks. After this, the mother and child would be separated, and Brown, *Seattle Times* columnist,

# So the public may know...

## THE SOUTH LUZON TOLL ROAD NETWORK

The South Luzon Toll Road Network is composed of various expressways that connect Metro Manila to the provinces in the south of Luzon, particularly CALABARZON. The first expressway from Metro Manila heading south is the Metro Manila Skyway System or Skyway. On approach to Alabang Vachet marks the start of the second expressway, the South Luzon Expressway or SLEX.

SLEX is now linked with the third expressway, the Southern Tagalog Arterial Road, or STAR, to Batangas City, with the link road to be opened upon certification of its substantial completion and issuance of the permit to operate. SLEX will soon be further extended to Lucena City in Quezon.

### The South Luzon Toll Road Network

### Facts About the SLEX Toll Fees

The new Toll Fees for SLEX has been a hot issue in the media for the past couple of months. It was, however, noticed that there are a lot of inconsistencies and misconceptions on the news reports and articles that are reported by the media. Hence, these clarifications:

#### Fact No. 1

The South Luzon Expressway Project under the concession of the South Luzon Tollway Corporation starts from Alabang, Muntinlupa City, including the Alabang Vachet, to Lucena City.

- Phase I covers the rehabilitation and widening of the 1,142 km, Alabang Vachet, reconstruction and widening of the existing 28 kilometer expressway from Alabang, Muntinlupa City to Calamba City and a 7.5 kilometer roadway extension from Calamba City to link with the STAR at Sta. Tomas, Batangas.
- Phase II involves the construction of a 56 kilometer new expressway from Sta. Tomas, Batangas to Lucena City.
- Phase I has been completed while the Phase II is still the subject of the required Road Right-of-Way acquisition and Final Engineering Design.

#### Fact No. 2

SLTC and its Operations and Maintenance company, Manila Toll Expressway Systems, Inc., assumed actual collection of the toll fees only on May 2, 2010 using the existing toll rates. While the contract of SLTC with the Government commenced on February 2, 2006, the collection of toll fees from February 2, 2006 up to May 2, 2010 was undertaken by Philippine National Construction Corporation, the previous operator of SLEX.

Not a single centavo was collected by SLTC/MATES until May 2, 2010 in spite of the fact that the new expressway was being enjoyed by the motoring public since its completion in June 2009.

#### Fact No. 3

The present toll rate of P167.75/km of SLEX was a result of series of discounts made from the time the reconstruction of SLEX was started. In 2006, the toll fee was P160.83/km. A 10% discount was made in May 2007 making it a P144.75/km when construction works caused traffic congestion. In 2008, another discount was extended in consideration of traffic build-up due to the Skyway Stage 2 construction, finally making it to the present P167.75/km.

- For cars or vehicles classified as Class 1, the present toll fee from Alabang to Calamba is P1672.00.
- The new toll rate, approved by the Toll regulatory Board is to take effect on June 16, 2010, is P1672.75/km, but was further reduced to P167.08/km. The difference is P167.90/km from the prevailing toll rate of P167.75/km. The new toll fee to be paid therefore from Alabang to Calamba covering the 28.3 km expressway is P167.08, rounded down to P167.00 or an additional of P167.00.
- The additional P167.00 to the existing toll fee of P167.00 is approximately 2.5 times or 250% of the existing toll fee, not 120% as erroneously reported.

#### Fact No. 4

How much will motorists on Class 1 vehicles pay from Magalanes, Makati City or C-3 in Taguig City up to Calamba City in Laguna?

Segment	Length	Current Toll Rate	Current Toll Fee	New Toll Rate	New Toll Fee	
Magalanes, Makati City or C-3, Taguig City to Alabang, Muntinlupa City	13.5 km	P164.80/km	65.00	P164.80/km	65.00	Amount that will accrue to Skyway
Alabang, Muntinlupa City to Calamba City	28.3 km	P167.00/km	22.00	P167.08/km	15.00	Amount that will accrue to SLEX
<b>Total</b>			<b>87.00</b>		<b>141.00</b>	Difference: P167.00 or increase of 62%

At the current toll rates, Class 1 or cars pay P167.00. The P167.00 goes to Skyway for using the ground level portion of Skyway from Magalanes to Alabang while the P167.00 goes to SLEX for the use of SLEX from Alabang to Calamba.

The public are of the wrong impression that the toll fees from Magalanes to Calamba of P167.00 will increase by 250% and become P167.10. The proper way of deriving the current rate is to use the applicable toll fee of P167.00 (Skyway) plus the P167.00 (SLEX) for a total of P167.00 or P167.00 higher than the existing rate of P167.00.

#### Fact No. 5

The Toll Rates of P167.08/km of the new SLEX is not the highest among the privately-financed toll roads in the country.

- The Toll Rate of North Luzon Expressway is presently P167.00/km
- The Toll Rate of Manila-Cavite Expressway toll rates is presently P167.00/km
- The Toll Rate of Skyway at-grade is presently P164.80/km
- The other toll roads, namely the STAR and the Subic-Clark-Tarlac Expressway, presently charge lower rates because these were constructed with subsidy from the Government.

**MTD Manila Expressway, the major investor of SLEX, continues to have a strong faith with the Philippine Government and the Philippine justice system.**

• Alabang • Calamba • Sta. Tomas

We build good roads because good roads build strong nations.

# I'm still your chief, Noynoy tells defiant rear admiral

By Christian O. Aragon  
and Dana Padilla

THE PRESIDENT did not make any words yesterday as he instructed the gifting of his silver jubilee plaque to the rear admiral who is now under fire as Commander in Chief of the Armed Forces.

At a news conference, President Aquino ordered Aquino to follow the order that he is assigned to Mindanao.

"That was my decision so he should follow. I'm not simple. He cannot just allow a cabinet member to behave with an act with no order or discipline," President Aquino said, adding that otherwise there would be "disorder."

Aquino had publicly promised his "donor-free" when the military establishment announced that he was being head of the 10th Infantry Capital Region Command (10th ICR) to being commander of the Naval Forces Western Mindanao based in Zamboanga City.

The new school of thought concerned military officers of actively keeping the units from the Philippine Military Academy (PMA) education who took advantage of their ties with former President Arroyo to get ahead.

Defense Secretary Voltaire Gazmin, responding to Aquino's criticism, said he would leave it up to the Armed Forces leadership to deal with the problem.

Up until he formally issued new command of the AFP, Aquino said he was not a commander. He said he was going to be a commander of the AFP, but he was not a commander of the AFP.

Aquino ordered AFP Western Command to deal with the problem. He said he was not a commander of the AFP, but he was not a commander of the AFP.

The secretary would still have it to be the AFP to act on this. The secretary of the AFP would still have it to be the AFP to act on this. The secretary of the AFP would still have it to be the AFP to act on this.

But Gazmin, in a statement with a television news, said he was not a commander of the AFP, but he was not a commander of the AFP.

The Department of National Defense also announced the support of the AFP to the AFP.

**Abstract**—The purpose of this study was to determine if there were differences in the prevalence of musculoskeletal disorders between two groups of nurses working in different departments of a hospital. The sample consisted of 100 nurses from the intensive care unit (ICU) and 100 nurses from the medical-surgical department. Data were collected through a self-administered questionnaire. Results showed that the prevalence of musculoskeletal disorders was higher among ICU nurses than among medical-surgical nurses. This finding suggests that the work environment in the ICU may contribute more to the development of musculoskeletal disorders.

## Gov't to keep Mindanao hydro plants

### Says 955-MW Agus, Pulangi power facilities 'critical assets'

By Amy R. Reyes

THE DEPARTMENT of Energy will no longer prioritize or offer to investors the 955-megawatt Agus and Pulangi hydropower plants in Mindanao as these are expected to help stabilize supply and electricity prices on the island.

"The two tags are still like hydro is limited, because it took part of the revenue to the Mindanao situation to the appropriate use of those [plants] not just for supply but in the pricing equation," said Energy Secretary Jose Benigno Alvarez.

The two facilities are critical power

plants as these currently provide more than half of Mindanao's electricity supply.

At the initiation of the mid-year economic briefing yesterday, Alvarez said that he has informed the state-run Power Sector Assets

45.100

## STOCK MARKET

Aug. 15, 2013

32.57

## Stocks continue to rise

LOCAL STOCKS climbed for the third straight session in heavy trading as an overnight rebound in Wall Street further boosted risk-taking appetite.

The main stock index rose 32.57 points to 3,257.00, up 0.1% from 3,256.93 on Aug. 14.

The market was also helped by a cash-rich investment market seeking higher yields in a prolonged low-interest rate environment. Advancers outnumbered decliners, with the property and real estate sector leading the way. The day's top gainers were the property and real estate sector, up 1.5% and 1.2% percent. Other top gainers included the health care sector, up 1.1%, and the telecommunications sector, up 1.0%.

The day's most actively traded stocks were PSEI, Alkermis, Lina, BDO, and the Philippine Stock Exchange. Major gains were seen in the telecommunications and health care sectors.

Overnight, US stocks sharply rebounded from a day of volatile trading. The S&P 500 finished the day up 1.1%, while the Dow Jones Industrial Average rose 100.00 points to 14,000.00. Investors took heart from the strong performance of US stocks, which has helped the Philippine stock market to rise.

## P15-B bond issue of Napocor put on hold

WITH THE FINANCIAL administration focusing on energy agencies, the Department of Energy has put on hold the planned P15-billion bond issuance of state-owned National Power Corp.

According to Energy Secretary Jose Benigno Alvarez, the proposed bond raising has been shelved because there was a need to study further the viability of the plan for the state-owned power company.

"I have asked Napocor to study their needs for the SPGO—the business model, the procurement practices and all these things that I have been talking about in that introduction, so we need to wait for that," Alvarez said on the sidelines of the mid-year economic briefing yesterday.

"The P15-billion bond issuance is on hold because we also need to understand the Power Sector Assets and Liability Management Corp. as well," he added, without responding on what he intended to do with the agency.

PNALM is currently under fire for the P11.1 billion in privatization proceeds that were allegedly "siphoned" or claimed by a bankrupt provider.

Napocor was hoping to raise the 15-year, peso-denominated bonds to raise P15 billion in response to the SPGO capital expenditure requirement for this year.

## Don't let the world pass them by.

Give your local public school daily access to news and information through Inquirer's Learning Corner.

Donate a minimum of 3 copies of the Philippine Daily Inquirer everyday, from Monday to Friday, to either a public grade school or a public high school in your community. For an entire school year, teachers can incorporate newspaper reading into their curriculum using Inquirer in Education material.

Students are taught not only the basics in reading comprehension, but also the most relevant daily events in their country and around the world. Newspapers also widen their perspectives and help them secure a better future as responsible and well-informed citizens.

Sponsorships from corporations, businesses, civic organizations, alumni groups and private citizens are welcome.

For more information, you may contact us at 897 8808 local 259 or 266; text 0918 382 4061 or 0922 818 2942; or e-mail [learning@inquirer.com.ph](mailto:learning@inquirer.com.ph).

By Philippine D. Reyes

THE CURRENT is expected to post a surplus of approximately \$100 million in July, according to a report by the Philippine Statistics Authority (PSA).

A \$100-million BOP surplus in July would bring the total surplus for the first seven months of the year to \$1.5 billion, up 22 percent from \$1.272 billion in the same period last year. The report also said that the BOP is in a surplus for the first time since 2009.

The report also said that the BOP is in a surplus for the first time since 2009. The report also said that the BOP is in a surplus for the first time since 2009.

and investments—foreign portfolio or direct—by foreign investors.

A similar significant percentage of imported goods and services, and outflows of debt payments, are in foreign currencies.

Despite the BOP surplus, the country's reserves of foreign currency are still low. The report also said that the BOP is in a surplus for the first time since 2009.

IONICS posted a profit of \$1.08 million in the first semester as the company's global revenue increased to a double-digit growth in 2010.

In a disclosure to the Philippine Stock Exchange, the listed group reported a consolidated net income attributable to common shareholders of \$1.08 million for the first semester ending June 30, a reversal of the \$600,000 loss in last year's same period.

In the second quarter alone, it booked a consolidated net income of \$399,000, a turnaround from the \$254,000 loss in the same period last year.

Groupwide revenue for the first semester jumped by 10.8 percent year-on-year to \$43.9 million due to an increase in customer orders. In the third quarter, \$22.2 million came in during the second quarter, higher than the \$14.9 million posted a year ago.

Since 2008 consolidated cost of sales grew by seven percent thanks to price growth, rising to 30.34 percent to \$41.5 million. This was attributed to increased production costs and maintaining cost reduction measures.

Gross profit jumped to \$1.03 million from \$175,000 in the same quarter last year. Groupwide revenue for the first semester ended June 30, a reversal of the \$600,000 loss in last year's same period.

## Bright idea, but then again...

SAN FRANCISCO and COO Rector Ang, who is on the board of the 2010 Asia-Pacific Summit, had a good idea—\$100 million, as that

The idea was the only thought that Rector Ang had in mind when he was asked to lead the BOP surplus for the first time since 2009.

The idea was the only thought that Rector Ang had in mind when he was asked to lead the BOP surplus for the first time since 2009.
